How to Be Welcome.

If you want to keep your welcome at the cost of a few cents, you should read this article.

When you're asked to spend a week-end with your friends, you should be very glad to make.

On your conduct any second bid depends. Though it is a pity, I don't believe her. This is but a summer fest.

If you wish to keep your welcome do not do it.

Put on fancy clothes away. And keep busy every day. See the housework to be done and buckle to remedy.

Though the hostess tells you kindly, "Never mind the dishes now. I will do them in a jiffy," don't believe her. Grab the towel or the dishpan, if you have to start a row.

Should you take her at her word it's sure to grieve her.

It will make her sore indeed. If you settle down to read.

On the porch while she is struggling with the dishes.

Oh, get busy with a broom. Dust in the kitchen, mending, mending.

Disregard in this respect your hostess's wishes. Should her hubby say to you, "I will take you for a row."

While she's getting dinner ready, bear in mind that your hostess in the kitchen if you should get up and go.

Will be saying things about you most unkind.

Just decline his invitation. With the dinner I insist on helping Jane.

Don't go boating while she's telling in the heart of the rubber cork.

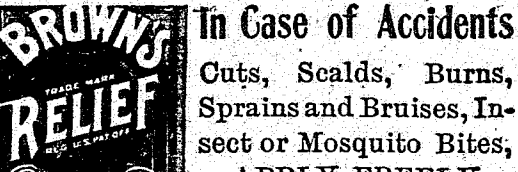

If you do she'll never ask you there again. When you get up in the morning very promptly make your bed.

Do not leave it for your hostess kind to do. Do the dusting, do the sweeping, tie a towel round your head.

And get busy or she'll have no use for you. Never wear your clothes upside down.

Do not pay too much attention to the men. If you love the shoe.

She'll be glad when you go back. And she'll never, never ask you up again.

In Case of Accidents

Cuts, Scalds, Burns, Sprains and Bruises, Insect or Mosquito Bites.

How Baseballs Are Made.

The evolution of the modern baseball and its manufacture are the subject of an interesting, illustrated article in the August number of Popular Mechanics Magazine. It says:

"Outwardly the ten-cent ball bears a close resemblance to the dollar ball, but, as every boy knows, there is a vast difference in the life and durability of the two spheres. The center of the cheap ball is made of ground up carpet rags closely pressed into a core by machinery. Over this core string is wound—a very little string compared to the quantity used in winding one of the professional league balls—and then the unfinished article is sent to the room where the women sewers put the cover on, the seam being drawn together by hand."

"But the league ball is a very different product. In the first place, the construction of this ball has been undergoing an evolution for years. At the present time there is much complaint from some who would have few runs and a quick game, on account of the way in which the batters are hitting this new cork-center ball. The complaint is heard that the ball is too fast and runs too frequently. The explanation of the experts is that a ball hit on the ground with the new ball is no faster than with the old one, but that a ball hit in the air goes farther, thus accounting for the great number of extra-base hits made in recent years."

"Some years ago, the balls were made with rubber centers. Then, in response to a demand for more runs to make the game interesting to the spectators, the experiment was tried of making a ball with a small piece of cork in the center, in the heart of the rubber cork. This produced a little of the desired effect, and every year from that time the relative sizes of the rubber and the cork in the center of the spheres has been changed until the present fast ball was evolved."

ATTACK LIKE TIGERS.

In fighting to keep the blood pure the
white corpuscles attack disease germs
like tigers. But often germs multiply so
fast the little fighters are overruled.
Then see pimples, boils, eczema, salt-
rheum and syres multiply and strength
and appetite fail. This condition de-
mands Electric Bitters to regulate stom-
ach, liver and kidneys and to expel poi-
sons from the blood. "They are the best
blood purifier," writes C. T. Budahn, of
Tracy, Calif., "I have ever found." They
make rich, red blood, strong nerves and
build up your health. Try them. 50c

IN HOT WEATHER

it is difficult to know what to eat.
Nourishment is needed just as much
in summer as at any other time, and
this coupled with the fact that most
is undesirable, explains why so many
people are eating

CURRENT BREAD

which is twice as nourishing as
much more wholesome. Try this
recipe today:—

Scaled 2 1/2 cups milk. When cool
add three tablespoons sugar, a lit-
tle salt, and butter the size of an egg.

Dissolve 1/2 compressed yeast cake in
half cup warm water and add to
milk. Stir in flour enough to make a
batter and add one pound of currants
washed and dried. Add flour. When
raised—knead again and place in pans
for baking. Be sure to allow enough
time for bread to raise in the pans.

Rheumatism

Is A Constitutional Disease.

It manifests itself in local aches and pains—inflamed joints and stiff muscles—but it cannot be cured by local applications.

It requires constitutional treatment, and the best is a course of the great blood purifying and tonic medicine

Hood's Sarsaparilla

which corrects the acid condition of the blood and builds up the system.

Get it today in usual liquid form or chocolate tablets called Sarsatabs.

Camp Comus Notes.

Camp Comus is certainly in full bloom

nowadays. Arthur Welch, chauffeur

and chief electrician for S. H. Hayden,

is rigging a powerful search-light, which

will throw a light over to Frost Corner.

He is also constructing a phonograph.

He is spending all his spare hours about

the camp. Mr. Welch says "Boys, it is

now as I can't keep away from this good

old camp." Mr. Welch is certainly a

very popular boy in this village.

Seldon C. Foster, a clever tonsorial

and lover of sports, will be on deck next

Sunday to put up a grand table. He is

the handiest coiffeur in the village.

He is also a classy barber. Go to Foster's

for a shave, massage, hair cut or

shampoo.

A lobster stew was enjoyed at mid-

night Saturday night by about ten fel-

lows.

Mr. Brown and Klein pleased us very

much by their songs. Mr. Brown is

taking vocal lessons from a young lady

on Cottage street. Mr. Wood and Mr.

Fogg gave imitations of a pair of joy

riders. Mr. Wood being the chauffeur.

Mr. Fogg says he don't like to go joy

riding so much as the dancing for Aug.

Benj. Cobb, who has been working at

the shoe business in Auburn, goes to

Howard Smith is having a vacation

from the Norway National Bank. He is

Who are Growing Bald.

People who have taken our word for

it that Parisian Sage is the real hair

grower, beautifier and dandruff

have never been disappointed. Here's

the word of a person who took our word.

"I have been using Parisian Sage

about a year. When I began using it I

had only a light 'fuzz' on my head.

Now I have a good thick growth. It is

growing thicker and longer right

along. Many people don't believe it can

be done, but I know from my own ex-

perience with Parisian Sage that it can.

I can recommend it to the fullest con-

fidence." - Gaining Brown, 708 North

WEST FRYEBURG.

A Hair Bread Escape.

A hair bread escape from a fatal ac-

cident occurred Tuesday when Andrew

Hill of Fryeburg was thrown from a

carriage driven by his nephew, Clifton

Hill, in front of the automobile in which

were Mr. Fox and wife.

Mr. Fox's car was a stop just

in time to avoid driving over the pro-

strate body of Mr. Hill who received a

severe shaking up. Mr. Fox carried

him to the home of Almon Hill of Green

Hill where he was a guest.

Mr. Hill returned to Fryeburg, Fri-

day with a lame back and leg and sprain-

ed wrist as souvenirs of a summer out-

ing and feeling fortunate that he escaped

with his life.

Mr. Hill is a veteran of the Civil War

and is a brother of David B. Hill of

this place and of S. W. Hill of Green

Hill, N. H.

B. Walker McKee and son Ellis are

at the parental home, now the home of

Harold McKee and family.

A change of note has taken place in

the transfer of the mill property from E.

F. McIntire to Lloyd Stevens, a former

West Fryeburg young man and his wife,

the daughter of an old and esteemed res-

ident of the place. We mean old only in

the sense of long time residence, since

Mr. Andrews has many years before him

prosperous and pleasant as all hope.

Mr. and Mrs. Stevens and their daughter

are at the ancestral home at present.

The Stirling Literary club met on

Wednesday July 19 at the home of D. A.

Ballard, from the veranda of which

sheltered from the afternoon sun an out-

look was afforded across an extended

range of steeply rising hills to the

west slope of Mt. Pleasant. A gentle

breeze tempered the heat of a typical

midsummer day and there was a good

attendance including several guests. By

special request the hostess, Miss Ballard,

read the selection from the Bay View

magazine descriptive of the city of Pitts-

burg, Pa., which those who were not

present at the previous meeting desired

to hear. Mrs. Charles Andrews read a

sketch of the life of the late John F.

Kennedy, a native of Fryeburg, and

Mrs. Elmer Walker, an amusing

sketch of the common life of the people

in the early days of the Republic. At

four p. m. adjournment was made to

September 6.

ACCUSED OF STEALING.

E. E. Chamberlain, of Clifton, Me.,

boldly accuses Bucklen's America Salve of

stealing - the thing from burns or scalds

- the pain from sores of all kinds, the

distress from boils or piles. "It robs

cuts, corns, bruises, sprains and injuries

of their terror," he says, "as a healing

remedy its equal don't exist." Only 25c
